

**EMPOWERING LEADERS**

# **Annual Impact Report**

## **June 2024 to June 2025**

## Foreword

When I started ZNotes as a 16-year-old in my bedroom, I could never have imagined the journey it would take me on. What began as a simple blog to share revision notes has grown into an award-winning EdTech platform that has now reached over 6 million learners in more than 190 countries. But this growth didn't happen in isolation.

At every stage of my journey, it was the guidance of mentors, the belief of those a few steps ahead, and the communities that took a chance on me that made the difference. Having access to people who shared their stories, opened doors, and offered advice was the catalyst that helped turn my idea into a scalable global venture. Without that early support, ZNotes would not be where it is today.

Therefore, I believe so deeply in the mission of OPEN. Our network is filled with extraordinary Pakistani-origin entrepreneurs and business leaders. People with rich experience, insight, and generosity of spirit. By creating spaces where seasoned entrepreneurs meet the next generation, we aren't just sharing knowledge, we're levelling the playing field and enabling the next generation of leaders.

London has always held a special place in the story of the Pakistani diaspora. Today, more than ever, young Pakistanis are arriving here as students, researchers, and skilled workers. With OPEN London CIC, we have the chance to welcome them into a thriving ecosystem and help them turn ideas into impact.

This year, I was honoured to receive the **Commonwealth Youth Award for Europe**, recognising the work of ZNotes in advancing inclusive, quality education. As OPEN London CIC deepens its involvement with the Commonwealth Secretariat and organisations, this recognition serves as a reminder of the power of Commonwealth-wide collaboration. For me, it reinforces the importance of building cross-cultural and intergenerational bridges to create global impact.

The efforts over the past year have shown the excitement and energy among the Pakistani community in London. Together, we can democratise entrepreneurship and empower a new generation to build boldly and lead with purpose.

Zubair Junjuna

Founder & CEO, ZNotes, Commonwealth Youth Award Winner for Europe 2025, Forbes 30 Under 30  
Youth Ambassador & Executive Committee Member – Youth Initiative Lead, OPEN London CIC

## Message from the Chair

Dear All,

I am very grateful to the entire OPEN Global and OPEN London CIC Board, Charter Members, and wider community for the success of the OPEN London CIC Chapter!

I sincerely appreciate the support of our Board, Advisors, Executive Committee, Charter Members, Partners, Sponsors, Supporters, Speakers, Volunteers and Guests for shaping the impactful work of OPEN London CIC.

Please find below an update covering the launch of OPEN London CIC, key programmes, events and initiatives, new social media channels, website, and podcasts as well as future plans, initiatives, and events that we eagerly anticipate hosting for you all.

We look forward to your continued support in our mission to foster global entrepreneurship and support bilateral trade, business, and investment growth across the Transatlantic and Commonwealth.

Your Sincerely,  
Zahra Shah

OPEN London CIC Chair & President and Top 100 Influential People Award Winner 2025

## Executive Summary

[OPEN London CIC](#) is the London Chapter of [OPEN Global](#) – a premier, global, non-profit established in 1998 in Boston, USA fostering entrepreneurship and professional development amongst the underrepresented communities with over 15 chapters worldwide across UK, North America, Middle East, and Pakistan.

Our vision is to create a truly global platform that bridges gaps and connects innovators across continents, building a thriving ecosystem of innovation and opportunity.

Our mission is to provide a platform for entrepreneurs and professionals to connect, network, collaborate, mentor, and support one another, empowering individuals at all stages of their entrepreneurial journeys. Through our efforts, we strive to foster a dynamic and inclusive environment where innovation thrives, opportunities abound, and success is within reach for all.

Our approach is to promote entrepreneurship, professional development, and leadership within the underrepresented communities, particularly the British Pakistani community, by fostering innovation, collaboration, and growth. We deliver this via our series of initiatives under the Mayor of London's Transatlantic Initiative (TAI) as well as other initiatives that cover:

- Fostering UK – US Relationships
- Serving as a launchpad for British Pakistani Professionals and Entrepreneurs
- Community building activities with innovation as a core pillar
- Cultural and mindset shift through professional and personal development
- Focusing on community engagement through local and OPEN Global collaborations
- Helping youth and professionals explore career and growth options through awareness and networking
- Supporting existing British Pakistani entrepreneurs and professionals
- Be a vehicle for talent from the British Pakistani diaspora into investment in Pakistan
- Connecting Entrepreneurs and Professionals
- Business Acceleration
- Supporting impactful charitable organizations in Pakistan
- Supporting the Growth of London (particularly in the tech sector) as a world class city
- Networking
- Knowledge Exchange

### **Transatlantic Initiative (TAI)**

OPEN London CIC delivers a series of initiatives inspired by the Mayor of London's Transatlantic Initiative (TAI) that provide a unique opportunity to deepen connections, explore collaborative ventures and foster

greater business and investment links across London/ UK and the US. The TAI was a joint US-UK Government project in 2008-2009 to develop a network of American Pakistani and British Pakistani community leaders to serve as a catalyst to foster business growth, integration, and civic engagement among current and future generations. TAI is the brainchild of the Mayor of London, Sadiq Khan when he was a Minister at the Ministry of Communities and Local Government.

### **Entrepreneurship and Professional Development Initiative**

OPEN London CIC delivers knowledge sharing panel discussions, masterclasses, seminars, roundtables, networking, and online events to foster entrepreneurship, professional development, innovation, and collaboration amongst its community of members and the wider public.

### **Artificial Intelligence Initiative**

OPEN London CIC has partnered with the Commonwealth Businesswomen' Network (CBWN) and the Commonwealth on the Commonwealth Artificial Intelligence Consortium (CAIC). The CAIC initiatives cover:

- Commonwealth AI Academy
- Make-A-Thon
- Commonwealth AI Incubator
- Simplilearn

### **Youth Initiative**

OPEN London CIC provides mentorship, guidance and support to young professionals and aspiring entrepreneurs to help them progress and thrive in their respective fields.

### **Podcast Initiative**

OPEN London CIC has partnered with Bloomsbury Radio for the OPEN London CIC [podcast initiative](#). OPEN London CIC Board Member, Arif Zaman hosts the Bloomsbury Radio Business Show. This weekly podcast is available on Spotify on Bloomsbury Radio from Bloomsbury Institute London. Arif often features people from the OPEN community globally to share their experience and knowledge with the public. Arif also hosts the Business Show – AI Edition with Zahra Shah, AI Advisor to Commonwealth Businesswomen's Network (CBWN) and Radika Kumar, AI Advisors to the Commonwealth to discuss the key trends, opportunities & challenges in AI including the Commonwealth AI Consortium, UK's AI Opportunities Action Plan, impact of US tariffs on the AI sector as well as other key areas.

### Global Context:

The British Pakistani community constitutes over 1.5 million people in the UK with considerable economic influence who can contribute to bilateral trade growth across the Atlantic, Middle East and Pakistan. Particularly there is significant potential for growing the £4.4 billion<sup>1</sup> trade with Pakistan with its youth demographic (65% of the 241.5 million population under the age of 30), digital adoption and established bilateral framework supporting trade with the UK. Furthermore, the Developing Countries Trading Scheme (DCTS) grants duty free access to 94% of goods exported from Pakistan with projected savings of £120 million annually.

Given the current global economic instability, US tariffs, climate vulnerability and regional dynamics. OPEN London CIC can play a pivotal role in creating opportunity within uncertainty by acting as a strategic facilitator between these global ecosystems at this critical time.

## Our Impact

## Future Plans

OPEN London CIC plans to continue with our Transatlantic Initiative (TAI), Entrepreneurship and Professional Development Initiative, Artificial Intelligence Initiative and Youth Initiative. We plan to focus on:

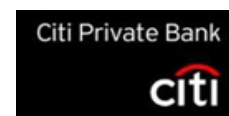

- **Cross-border collaboration, knowledge-sharing, coaching and mentorship opportunities** by connecting professionals and entrepreneurs from the underrepresented communities in the UK to like-minded professionals and entrepreneurs across North America, Middle East, and Pakistan.

- Provide targeted support in the form of workshops and other knowledge sharing initiatives for **entrepreneurs** to cover pitching for startups, financial modelling, investor expectations to accelerate their growth.
- Provide tailored support for **young entrepreneurs & professionals and women** to address the gender gap through targeted networking, mentoring, knowledge sharing and pitching events/ investor showcase.

We plan to work in partnership with key stakeholders across the private, public and third sectors as well as academia across the UK, North America, and the Commonwealth.

## Our Partners

OPEN London CIC is very grateful to all Partners for their support without whom we could not continue our valuable work to empower our global community across the UK, North America, Middle East, and Pakistan.

CONNECT. CHAMPION. SUPPORT.

Pakistan High Commission London
